At some point in my youth I heard the old cliché that “beauty is in the eye of the beholder.” For me—and probably for a great many other dorks—this was a moment of great clarity. You see, as a veteran of many noble campaigns in far-flung realms, I was already familiar with the concept of a Beholder—a giant, nefarious living eyeball (also known as an Eye Tyrant or Sphere of Many Eyes) from the original Monster Manual, Gary Gygax’s hardbound collection of foes one might face in the world of (what was then called) Advanced Dungeons & Dragons. Lo! How this fiendish creature dwelled in my nightmares, ready to pounce should I ever let down my guard! With great excitement, though, I proclaim that l’essence du Beholder is redolent in the thrilling and enjoyable Dungeons & Dragons: Honor Among Thieves. The entire picture exudes the wide-eyed (some might say immature) wonderment found around slobbering beasts and magic spells. No, you absolutely do not need to know a thing about D&D to like this. But if you have a familiarity with the Forgotten Realms, the 1980s D&D cartoon show, or if you’re just a Led Zeppelin fan, there’s something here for you. Otherwise, there’s too much going on to ever feel left out.
